The San Francisco Municipal Transportation Agency and San Francisco County Transportation Authority are planning bus rapid transit projects on Geary Boulevard and Van Ness Avenue. These diagrams show hypothetical lines that might use the Geary and Van Ness busways, based on existing routes 38L, 47 and 49 and including changes already planned. Some assumptions have been made. These are not products of the SFMTA or SFCTA. Copyright © 2009 Steve Boland, sfcityscape.com.
