About This Map

This map shows rail and bus rapid transit lines and stations that already exist, are under construction, or have been partly funded by Measure R. All projects could be built in 10 years under the 30/10 Initiative (see metro.net/projects/measure-r/ and metro.net/projects/30-10/ for more information). The map does not show Measure R projects that haven't been designed (the San Fernando Valley/I-405 and West Santa Ana Branch corridors), the downtown Los Angeles Streetcar, or the LAX Automated People Mover. Some existing station names are abbreviated versions used on Metro maps, and some future alignments, station locations, and line and station names have not yet been set.
